Went alone to City Deep at 6.45 pm. Met R.1 who tells me about comp. It houses all the unskilled workers of the city – engineer's dept. — men who are occupied almost entirely on pick & shovel work. R.1 says standard of educn. very low & this I confirmed on seeing them later — they looked a pretty primitive bunch, no collars & ties, many blankets, etc. About 80–100 gathered for the news. Fairly cold evening.

Went to City deep ~~shelter~~ City engineer's compound with E.B

Bitterly cold night, & been I went rather

night - No-one there when new began &

only gradually rose to 60.

Rose-times, the C.M., sound like the

lowest on record although never more than

100-150 (out of 2000). But transmission

very good - 3 loud-speakers & could be

heard from rooms.

R.I says people first thought the Govt:

was telling "the law" but now understand

They seem pleased with the service, but are

"apathetic" & never ask him questions

The type-written sheet no longer comes &

is not put up ∴

Afterwards about 20 remained. I

asked them usual opening questions e.g

a) Music or news. News (v. decided)

b) SA news or war. Both

c) Speakers - No they hear this more

10. Is it true Germany has 8 million ~~[illegible]~~ soldiers? How many have been killed?

11. What will happen to the Germans in the internment camp? (Pause) Wouldn't it be better to kill them all? But they are eating a lot of food

12 I cant understand <u>why</u> England is fighting with Germany

13 I speak with little knowledge but I think the end of the world has come. I think it is the Armageddon (some stuttering over this)

(All spoke in laborious English but probably couldn't follow all I said)

They asked for a talk by someone who had been to France. Germany etc.

5. What is happening in Abyssinia now? Are black people fighting there as white? (Eyes sparkle when I describe resistance of Abyssinia & delighted laugh when I compare the case to Mussolini's defence of monkeys (Bersaglieri)) Many questions concluding "and G.B will give back the country to Abyssinia? and all those other countries?

6. Has the British enough arms? What will happen if U.S.A turns unfriendly & stops supplying arms? Are they depending our country properly? Aren't they knowing it too late?

7. Are the French still fighting in Morocco? Are her troops fighting for England? and her planes?

8. I saw in a paper "G.B receives Taxes" Are they going to tax us? Aren't England tax us?

9. Why is Hitler taking care country after another?

named speakers (J.R. took them out & then the questions started - almost immediately). A police boy then asked a question about the arming of natives & another followed on the dangers of the mines

e.g. 1) Where are the mines laid? — English Channel, Mediterranean, Atlantic? [mentioned by name with considerable difficulty in English] — Are they floating? What do they look like?

2) Is Africa importing anything now? Can ships get here? Are we exporting anything?

3) Is England fighting quite alone now? These other countries - Australia & Canada - do they stay at home to fight or do they go to England?

4) In E Africa are there black people fighting? In Egypt?

25.VII.40

To Van Beek compound with J.R. arrived at 6.30 p.m. for a meeting with the room elders. They assembled about 6.45 in the green office (about 25 with interpreter). We asked for questions - no answer.

Green: whether they were satisfied with the news. One got up & made a polite speech thanking us for coming & said they were satisfied. Then urging from Green & me & another said, also in English (halting) - no questions. We were satisfied. Then suggestions as to length of news, people to speak to them, type of news etc. Blank politeness in reply. Head clerk when specially asked said the boys wanted someone in authority to explain about money being safe in the bunker. They knew it was a native speaking over the wireless & wanted authority. Also would like

2. Well-dressed Tipsy man speaking English attacks me & Boer a) They are not allowed to fight like men b) The Boer is making them fight & they will die & be hurt

c) The Boer is speaking untrue things - hitting things - sending a woman to speak to them who can't know about these things

(General hullabaloo. Completely unexplained.

We all wrangle. Out of of appointment

a) Because fear that country will be invaded while they are still uninformed: that they will be sent to fight the Germans uninformed: that the Boer are keeping them from fighting when they want to: that they can't get clear whether they are going to stay in this country or be sent away.

Close by saying I will get ~~completely to~~ Brink to come & speak to them.

Wemmer 24.vii.40

Went down to Wemmer barracks at 7 p.m. with No. 7 - unable to count exactly but total number finally about 130. Struck by much greater numbers gathered early in comparison with other evenings. Rather cold - Have put up for the first time in Xosa & Sesuto.

After talk Campbell asked for questions. No answers but the man who had asked me to find out about the labour battalion stood out & said No questions but he wanted to hear words I had promised from Native Commissioner - I gave Rheinhall Jones' message re conditions. Noisy meeting - no cheering -

Questions 1. (Young intelligent man speaking English) If the Govt: want men have they told the chiefs? (3 questions on this showing clinging to idea that chiefs must control calling up of men)

they readily agreed to. ~~the~~ AIR bade them goodnight & they responded with a short burst of unanimous applause.

Incidentally, Green told us at the beginning, that he had been accustomed to give them a weekly "news service" by reading over the microphone from the "Bantu World".

It is difficult to convey objectively the fine atmosphere of this camp — from its Supt. thro' his officials down to the men themselves. There was evident a sort of "community spirit" & almost a contentment. Big contrast with Wemmer!

Zulu — by what appeared to be a very competent interpreter. No one demanded a Sesuto interpretation & Green assured me that the Zulu was enough. In answer to some of AIR's preliminary questions they assured us that:

(a) they were very glad to have the news

(b) that they were not keen on music as well (Green has a set of records which he frequently plays)

c1) That they wanted longer meals

c2) That they wd like people e.g. Europeans to speak to them.

(c) that they wo'd like to ask us questions but wo'd prefer having notice.

Accordingly it was arranged that we sho'd return on Thursday evening to answer questions. Green suggested, in answer to AIR's plea for a smaller group to meet on Thurs, that they should put their questions to their room leaders, who wo'd then meet us on Thurs. This

technician. The 1000 men recently relinquished were told by Green "to go home for at least a year" & then to wait until they had definite news of employment before returning. Wages £4 (?) p.m. & all found, including food, soap, etc. First aid and adult education (up to Std. 6) classes run for them in a special ~~sch~~ schoolroom. Form of representation — each room of about 20 (?) men have a leader, who has direct access to Green, & thro' whom complaints & suggestions are made. Etc. etc.]

After the news Green readily agreed to all AIR's suggestions about questions, etc. (& didn't show the slightest nervousness or suspicion of us). AIR addressed the crowd (who had remained quietly waiting) & was interpreted — only into

Normally there are 2,500 in the comp. but recently 1,000 had been relinquished, as their European skilled artisans had joined up for war service. It appears that most of the Africans are employed at semi-skilled work as assistants to European electrical technicians. They are on daily contracts. Most of them, acc. to Green, are literate. They are signed on for employment by Green, who keeps a record of their tribe, home dist., family inf., & other details. They work on an average of 9 mths. & then go home on an av. of 3 mths, frequently returning again & regularly. Green has arranged a special pass system which ensures that a man who has just returned to work from home will continue working at the wage he was getting when he left, & that he will return to his former European

they did not force it, but stood facing us with the sfkr. on the side). Within a few minutes about 400-500 men had assembled, some sitting on the lawns, some standing; we could not see their faces as the only powerful lights were behind them, but they appeared quiet & intent. The record preceding the news started at 7pm. & then the news in Zulu & Sesuto followed as at Wemmer. Reception clear, very little interference, & every word obviously easy to follow.

[While the news was on, I spoke to Green about the comp: it appears that vR. is really what is usually classed as an "Industrial Comp.", ie, all the men living in it work for the same big-scale employer, in this case the Electricity Dept. of the Jbg. Municipality.

23.7.40

Visited Beck compound visited by AIR EH and JR (AIR had been taken down there earlier in the day by Venables). Introd'd to the Supd. Green who was awaiting us. On first impression the compound appeared to be well kept, with flower pots & lawns in the courtyards; efficient-looking police & staff; offices & bldgs. tidy etc (Cf. Wemmer).

Green said they had 4 load speakers at diff't. parts of the comp. The speakers were so placed that the men could stand at the doors & windows of their rooms, or keep sitting near their braziers, & hear the news without having to come elsewhere, if they wished. However, we found a big crowd assembling about 50-60 yards from one of the l. speakers (though, curiously enough,

be heard. They say they want it in Zulu, Xhosa & Sotho. "We like the English language but we cant read it". I promise to inquire [Enthusiasm expressed]

A long wrangle over grievances goes on between Campbell & 2 or 3 obstreperous individuals - in English now - Campbell declares his fathers fathers were Zulus & fought with bows & arrows & now look at him! They tell stories of injustice which he says the British never countenanced. [Interpreter murmurs "Stop now. They become naughty"] I say I will come again. Several cry "What day? We will come for the meeting to up we know" (many obviously hoped come for the news)

6 Old Zulu says "Why does the Govt. call us to help when in trouble & does not train us when it is not in trouble?"

7 Another Zulu - speaking asks if they are to fight with knob-kerries. Several explain that white men are always trained but black men will have to fight untrained. Another that if natives were allowed to fight they could smash the Germans.

[Long discussion & I say I will get the conditions of service from Brink]

8. We hear the people in Holland live like natives. (Campbell says humphhhhh that this is the result of Hitlerism.

A young man says sarcastically that this was not so before. No white men lived like natives]

I ask them about the news-sheet on

4. I read in the Bantu paper that Hitler is trying to make the French fight the British [Obviously a misunderstood article. Young, but stupid man]

5. We have heard a native army is being formed. I want to join it but I want to know what will happen after the war [Truculent, middle-aged Saiko 4. Shows he understands English] Explains last war men went to fight & were killed at sea. Others came back & found everything bad Pass laws & other grievances.

[Campbell weighs in & tells him that the British treat everyone well — that they are advancing rapidly — that England wants everyone free [Questioner says he is not free] Germany wants them slaves. Asks how they cannot be ready to die for their King because they have always been loyal to Queen Victoria etc.

[long wrangle over Pass-laws]

Questions

1. What did Smuts say last night? They never told us. We want to know
[young intelligent Sotho. Seemed satisfied by full account of speech]

2. [Middle-aged Sotho - Mechanic in overalls]
I am glad the English ~~want~~ have set so many German houses on fire & burnt their petrol. This is good because we don't want the Germans here. We want the English - (continues after interpretation)
I saw in the paper today that the Dutch had a meeting at Bloemfontein & asked for a Kingdom of their own. Is this true?
[Discussion on this & several explain they do not want to be cut off from English]

3. I hear the English are fighting the French. Is this true? (young man)

I was broke up the meeting at 8.25 p.m

I could have dealt with questions better if Campbell hadn't answered frequently instead of me expressing a) exaggerated confidence in G.B's military strength & very imminent victory; b) Strong defence of all "the British" had done for the natives; c) Open condemnation of the Dutch & constant praise of the "British", the Scotch. I found it difficult to give sensible answers. Thought Campbell was giving the boastful jingo stuff to encourage the natives, but found later on questions that these were his real political views. (Some of them were as far from being objective as many native rumours!)

However he was good-natured & did not discourage questions at all. Tomorrow

July 22nd Mon

Unusually warm evening — Found a crowd of 10 assembled ~~before~~ by 6.42. An English talk came over from 6.55 - 7 & called out a few men (evidently a B.B.C talk over the wires by accident) It is noticeable that bugle does not bring a mass of men. They come out when the talking starts & join the group often 10 mins after it has started (Bustin "indolence" or Bursting not wishing to wait for the Xhosa?]

Transmission good except when telephone bells cut across

Afterwards a small group (30?] stopped for questions. This group gave & men who hadn't been listening joined in. Questions came without reluctance this time & would have gone on indefinitely but they became political only (Pass. law etc grievances]

affirmed that they had understood the news quite well. On further provocation, the following questions were asked:

(a) Why were Africans not being recruited for the S.A army?

(b) Why was the Govt. taking the trouble to give them this news?

(c) What was Britain's reply to Hitler's peace move? (Poonyane)

(d) Why were they not getting the latest news?

good at all, being disturbed by the buzzing in the loud speaker of what sounded like a telephone bell. Once a voice (English) "crossed the wire".

I was accompanied by J.L. and E.H. whom I introd. to Campbell. He (Campbell) drew me aside & enquired whether they were members of the Com. When I said no, he said, well they were not to speak to the men, as his instructions were, etc., etc. I didn't mention that I was not a Com. member. He was very cordial to JL & EH though.

After the news I put the usual suggestion that they ask questions, & found the usual disinclination. Three or four

we saw that he had no question really we stopped him. The interpretation was I think, pretty good — Simon — in both languages. They were disappointed that the apparatus had broken down.

and the strategy of the war, & showed that they do not comprehend the most basic & simple facts, such as the geographic positions of the various countries, the background of the war, & other simple historical facts. Both Campbell & S.B. felt this too. Incidentally, Campbell chipped in once or twice in his usual 'forceful' manner.

The crowd around us were getting quite interested when we stopped at 8.05. One old man pushed his way in from the back & demanded to ~~tell~~ talk — something like this followed (with appropriate interpretations): "Greetings. We are glad to see you. It is good of you to come. We like to see the white men. We want to know about the war" etc. etc. When

Eventually they got going and S.B. answered most of the Questions put. Following are a few samples of the Questions:

(a) We hear that Germany was making big preparation for an attack that was to come yesterday or to-day: why has the attack not been made?

(b) Why did the English troops have to leave France?

(c) Why don't the English attack the Germans now?

(d) Why can't the Germans get enough supplies of food?

(e) How can the navy prevent food coming in?

(f) What are the English doing now? Are they just sitting & waiting?

Most of these Questions dealt with tactics

19.7.40

Arrived alone at 6.45 & found no crowd assembled; few reading the reports of previous news pasted up on the board. Preparing to make a count when Campbell discovered that set was not working. Tried to assist him but was unsuccessful, nor would Senoane (who appeared to have something to do with the apparatus) do anything. Meanwhile a crowd of 50 or 60 had collected and when S.B. arrived at about 7.25 I got Campbell to assemble them to put any general questions.

As on previous occasions they seemed loth to make any enquiry, and I did my best to encourage them by continually repeating that we wanted to know if they had been understanding the news, whether they'd like additional information, etc., etc.

fighting together now. (G.L.R describes relationships ending at Orem] Native murmurs that he is going for France. The Germans take away everything from her & now we take her ships. This is not translated by the interpreter, who conques with him with heat & then replies to me "My thanks you"

Addressing old Zulu If Germany is so strong, why don't we go into her country & take it? (G.L.R. replies elusively that he did not know England was an island]

He repeats his question.

(Campbell bustles them to go all the time. Interpreter was tried to shout him in his office]

After they were queen told their questions would be answered. Campbell refused to allow them into the office (for fear they might take something!) & I was to stand at door & answer. Most of the crowd gathered round. The interpreter Duncan asked for questions - None. Asked again - None. Campbell scolded "This lady has come all this way to answer you & you say nothing". No answer. I turned to me with ill-concealed triumph "You see how it is Dr." We start to go when an old man says we have been too quick. They couldn't think of their questions quickly -

On every hand Sofunya says it was the interpretation at fault. There were many people who wanted to ask questions & did not because they saw it was no use. People listened the news because they say it is old & because it always favours the allies. Then stand & say Kaka Kaka which means "lies". They think they are being deceived

18th Evening rather colder. Arrived at 6.50 to find 2 natives waiting & 2 reading news on board. [Campbell says they often stop to look at it but he thinks proportion of illiteracy high & mostly done for parade]

Tonight a tune played before the summoning gallop – then blank – then gallop – then another tune. But most people arrived for the talking & gave impression of waiting for it. Campbell sent police-boy to call them after first

been a war for a long time & we heard nothing & we are surprised etc. . .

Sojaya asks a long question about the invasion of England — Mrs. interpreted & he gives up.

A in Compliments of hearing the news in Sesuto & English simultaneously. Wants one language at a time

A in Wants Zulu & other languages as well

Much wagging of interpreters & stupid questions. Le mean outside demands Pongwe as interpreter & thanks the Govt: for sending people to answer ~~ask~~ questions —

I say we will come back tomorrow when they may have thought of questions —

Campbell takes times to be fair to them. They seem allowed to ask questions & did like first night & second. If they say now they can't ask questions like today & govt: will report badly on them

Afterwards Campbell announced that anyone who wished might come into his office to question us – About 50 crowded in & others at the window. I explained object as a member of committee to give them what they wanted & asked for questions. Butin interpreter had (Xhosa spoken)

not wait after Zulu broadcast - Brunk arrived
simultaneously & linking ∴ impossible - Mr
Campbell reported gradually decreasing
numbers - Big crowd (250) Sunday to hear
Reitz but disappointed when he didn't
speak - Sojuya sitting taking notes -

After meeting (long - no music) Brunk
addressed them - asked them if they
understood - Yes. except Zulu who wanted
it in Zulu. Was the news what they
wanted to hear? Unanimous yes -
Did they want more news or more news
Unanimous Yes - except one time before
at beginning while men were gathering -
Were they satisfied? Yes.

On way out Sojuya followed & said
in presence of Brunk, that it was lies.
The people were afraid to speak in front
of the N.C. They had given <u>him</u> heaps
of complaints. They said the news

they & slacker do not seem to understand his duties. Also introduced I D C on behalf of P. C. appealing to Commissioner Hp. & Nk., & asking him to excuse more patience w/ Lev people for they are like children.

Hand. address, Hand. accompanied the Juce station; P/C. failed to come down to the spring well; said he spoke, expressing addressing his meeting personally, about Ch. Hp. & Nk.

Magangade, Kalewaho, & Ibupa & the polls. While I bdy was being defended I could become angry & used unbecoming lang to D.C. & denounced himself lang I bdy unstabled. P.C considered him a serious & did not go unchecked. Fatally for Hp. he was not tried of illness. Each of I & Ten fined a head, there to be hot this being to be seen by all Chs & people present as an example.

Hp. advised to appl a pp., when he considers intellgt, to represent him in all matters as a Ch, as he may comment more wisely & aptly fatherly.

Hangan, stated I P.C. is unsatisfd - I Chs of this dist. -

(19)

P/C found that Nkangama has acted in a most erratic, ~~[illegible]~~ disrespectful & unloyal manner & I got off. I.D.C. here had also taken 1 month of going to see Nk. at his kr. about Zambulas affair. Even ~~[illegible]~~ and not more Nk. – Nk fined 10 hd by P.C.

Mpundu's case considered v. seriously as act of his part of penalty is heavy, but his manner grew foolish than anything else, partly ∵ of his advanced age ∴ his punishment is 5 hd only.

Another case is Mp. re boundary dispute. I.D.C. was trying to dispute boundary but Mp. & people pointed out Palata. Mp. not ~~[illegible]~~ reproved by tendering Mpundu.

The F (Zambula) appealed to P/C — P/C advised him to go back to his kraal & remain there ∴ Nkangane had not obtained an authority from P/C to expel Zambula from his location. Nkangane heard this — sent for Zambula & asked if it was, & when told it was, he insisted that Zambula should clear away immediately, saying, his order is final, nobody else having power to cancel it.

On bad. of of P/C the D/C came for Nkangane to go to Royal Inc. — several times. Nkangane ignored the — giving reason. At last he went up.

corrected him, pointing out cattle esibayeni, he admitted seizing. The latter action is also regarded as very unsatisfactory, on part of Mpumalanga District Commissioner. When at Royal Kraal, Mpumalanga before P/C said it was an order from an official at Stegi that he did so. This explanation, although he repeated it, the call was not accepted. He was fined 5 Lead for the 2 offences.

Chief Nkomjane also recalled unsatisfactory. A young man, son of Zombula Ndengwa, murdered girl in his area. The judge sentenced him to life imprisonment. Nkomjane ordered Fifth this man to move from his area ½ of said son.

of balance 10 he intended to give
H of death as labelo compensation.
After doing this he did not report
to P.C. or D/C what he had done.
Relatives of convict informed him
in good faith that Mpundle had
done, he reported to officials,
who reported to D/C, Segi.
Mpundle repeatedly sent for by
P/C through D/C to go to Royal
Kraal, to see P/C about matter,
but failed to. As there was
no reason for this failure, it
was taken as deliberate refusal, &
in end he was made to go.
Before he could see D/C some
time at his home he seized rifle.
Mpundle denied all knowledge
of it, but said his brother

then instructed to do so. Chief Mpundle was wanted i.e. in a case of murder in which a man murdered another man's life, this man was ordered to sentenced to life imprisonment, he was serve, time at Ibadan gaol. After the passing of the sentence, Chief Mpundle wanted to impose his own sentence on the convicted man, he sent his Informer Mefamba to the office at Ilugi to ask if he could not punish the convicted man, he was advised to deal with matter a.t. native custom or consult the P.C. as to what should be done. Instead he seized the convicted man's cattle, 13 + 2 goats & disposed of 3 of them

Chiefs' Meeting held at Stegi, 22/4/36.

Chief Mandanda, representing Sobhuza, addresses assembled Chiefs

Chief Mandanda, accompanied by Chief Zeco, stated:

The P.C. failed to come down to this meeting on account of being unwell, he sent me with Chief Zeco to represent him, he said I must tell you that he specially intended to address this meeting personally about what Chief Mpundle of Nkangana had done. These 2 chiefs failed & neglected to perform their duties & are defied instructions from the D/C & the P.C. & they have both repeatedly refused to come to the D/C's office & to the Royal Kraal

Natives

Natives leaving Tel. or P.E. eager to settle on Singh, first notify their own officials, Eur. or Nat. Then write to Adgtrs Singh. Nat. must then secure permission from P.C. Usually Nat. 1st gets into touch w. a Dis Chief, and when once he wishes to settle, & this D.C. sends him w an endorse to Sol. to ask permission. Sol. having accepted him, sends him along to D. Com. to register.

If Eur. is prepared to accept rats. on their land, no need for them to secure P.C.'s permission. & no Adgtrs to be here.

Belief in Witchcraft

Lattah said: There was a preacher at Watinaloven who went on unstair. He kept on inveighing. Sday Church service was late & and at 1 inferno got tired waiting for 1 Q before starting out. He evil acts so it decided to go to 1 Q. Arrived there everything was standing, & no one noticed it. Just as a dog smells its M., so 1 inferno made straight for 1 Q. When they knelt, there they saw 1 inferno, in front of 1 Q. There every got a fright, recognising our impaka. They rushed to 1 door, tumbling over each other, breaking windows, & 1 woman ran w him, 1 inferno following him. No: went to that church agin; but what else could they do?

D Proximity

Whereas in I reserve rats & often on excellent terms w their neighbors, in I terms there is usually slight contact. A key not be left 'w I next door neighbor' or a child, or a Q not ask I neighbor to look after them if he is ill & he is away.

But it quite often happens that Qs in I institn dislike each other, & there is sometimes an attempt to 'swap houses' to get away from an unpleasant neighbor. In I received = easy enough to move not so in Phoenix. 2 cases told me, in wh there was actual ftg. I was being killed, & made I quarrel so I of strong mutual antipathy.

Case 1. a r – Q came to complain to I Superdt that a w in I bldg, had swore at her, & told her if she moved out of her fd. she'd kill her. Superdt calm & walking, dm a, but cautioned both & told him not

Xmas — Lettlop

Naboto Pruesti pastoge: of Lettlop borrowed some mealies from Samuel Hatenjwa, & he said 'Bringtem back.' 'the replied "Of cos. he is not an ordinary person' the returned mealies before 2 otha debts should incurred.

Pruesti is known for their wealth ghee. 'No money will be for sour bread.

Xmas contempt for the converts. I heard 'Tohwa doesnt even go to church. She just dresses well & swanks. She is just a king'

Birth of Grout's child — Hannah's baby.

Urgent summoned by Evangelists 3 days after child was born. Converts went straight into room sans ceremony. Evangelists started a hymn, then prayed, only then greeted each other, & started getting parking & cooking.

Case of Lencuse.

1 Indlov. sent 1st of all Lottadaba to call people to 1 case, but not 'cut' 1st case was called for 1st time, then she wanted to send him for him 1 2nd time, he said he was busy so she sent Ligwalomalala; Lomad. him went to 1 people for 1 cattle & got it

Ligw. was 1st person to have received it, judgmt given at 1 Indlov. court & last appeal. When 1 case was over Ligw. went & got his beast as 1 Lencuse was charged it w a Dutchman for a horse; Lomad him claimed beast & went & demanded it from Dutchman

Perjury – a witness is disgraced but not fined by the commoners perjury. Occasionally in 1 middle of a case 1 of 1 people speaking will be asked to purge, doc. this by lucky finger & pig ropes, & sometimes by taking a missing witness.

All agree that a Q can lay a case in her own name

Umvimba. I mark left by a lunwati, i.e. a weal. Then when a punishment was fined for kuenga. I am of opinion above actual no stolen is spoken of as umvimba; 'they but dam w a ~~sta~~ ship.' X. stole £1 from 1 wife & £1 from another wife of 1 kg.; other F was fined a cow for each wife & 1 cow for 1 umvimba. went to induna

If a case does not reach no an inkosana to go far, he doesn't receive a beast eg of 2 men under same ch. has a dispute. In case of dispute over gdns. in area of 1 Ch. no beast for inkosana? for Ch. eg Samuel Mafoyana Lomdeba Sandane(?) both under Vala Falundu

Indlov. does not pay dlinesa for between cases eg in case of Hlabezwan who said that he had been sold, / Indlov to take a beast from / intlombe, & who was found to be lying, he was fined an ox the beast which was not given to / linesa, but kept by / Indlov. Cho pay for his lunchroom & int.

No person is found in 2 counts.

Indoor: Abdullah Kabuli Mountain

No case known of an incisa being refused his fee, sometimes given £1 or even £2 instead of a beast.

A goat is usually killed for 1 Incisa or 1 man's reward. The Incisa gets what is to be called a retainer's fee. Hence, if he received a beast or have been given a goat for his sidesman's sake, 1 person who has rendered services in far from paying him for any further cases, tho' it is usual to kill a goat for him either he'll be well fed. Thus 1 Incisa is an N.B. person in any case, chosen for his quickness of wit & trustworthiness & friendship. Formerly mainly older men, so that proc. ahead it is so tho' indeed it was a person usually 1 Chief. A fool does not talk Cases.

Indlovulazi

Cont'd

If I somangali (plaintiff) gets is defeated, I Lencwa will ~~get~~ not get his beast tho' he did not work all I same, ~~but if I case~~ I Lencwa of other man ~~tho~~ will claim from ~~his man~~.

If the man has no cattle, will say Lucala lidlwa injo – + he'll get of, but a Lencwa can claim – of.

Case of Lugway Lomatala v Lomadlba. 2 nancwa

Lencwa is like an inyali, it be too poccla – gives to type, ∴ he is eager for his reward like w, if I bar an advocate v I this basit, w well see I, w I advocate always wins Lencwa afayana, carry on a verbal battle.

The grades the hierarchy the lens of friction, ~~until~~ unless it results in such oppressive inequalities as to make the two the frame of law & order & manifest itself in its preliminary stages in invective & propaganda, & later, strengthening, on open conflict.

In my article on Hlt. Org. I demonstrated the frictions & adjustments in Sw. soc. One point stood out clearly – the value of monarchy. For indiv. variation was more restricted than at present, unprovoked by ~~new~~ mechanistic stimuli, ~~contained~~ a homogeneous grp ∵ of its scarcity of nerves, its belly to the ground subsistence.

My reconstruction of the sw. past entirely fell into diff hands – its length ~~[illegible]~~ limits, & its forgotten richness of expression, its breadth & depth of kinship ties, the

And suddenly there was with the angel a multitude of the heavenly host praising God and saying, Glory to God in the highest, and on earth peace, good will towards men. And it came to pass, as the angels were gone away from them into heaven, the shepherds said one to another, Let us now go even unto Bethlehem, and see this thing which is come to pass, which the Lord hath made known unto us. And they came with haste, and found Mary and Joseph, and the babe lying in a manger. And when they had seen it, they made known abroad the saying which was told them concerning this child. And all they that heard it wondered at those things which were told them by the shepherds.

NOTES:

This collection of Professor Hilda Kuper's field notes was selected for filming by the author. The notebooks have been arranged in chronological order where possible. Most of the notebooks have been numbered by the author; they represent several series and have varied numberings. For ease of identification in the use of this microfilm, a single numerical sequence has been applied to the collection of notebooks (Film Sequence Numbering). Unless specified, all references to notebook numbers refer to Film Sequence Numbering.

Several notebooks include indexes. Some also have separate indexes on cards provided by the author. Both indexes have been filmed, the card index preceding the text of the corresponding notebook.

There are some index cards for which there are no corresponding notebooks. These cards have been filmed with an indication that no notebook will follow.

There is also a general subject index that covers a group of selected notebooks dated 1931 thru 1941. Some notebooks in the time period were omitted from the subject index. Entries show author's numbering for the notebooks. A table converting the author's notebook numbers to Film Sequence Numbering precedes the subject index.

Some of the notebooks have text beginning at both the front and rear covers and working inwards towards the center. Text beginning at the front cover is designated the A side; text written in the other direction is called the B side. Whenever A and B texts intersect, the relevant pages are filmed in their appropriate positions in each sequence.

Blank leaves between the texts of the A and B sides of notebooks are treated as belonging to side A.

Pagination within notebooks is inconsistent. In some cases, it is unclear whether a leaf is missing or whether a number has been omitted from the pagination. Some notebooks are not paginated.

Many notebooks contain discolored, stained or torn leaves. There are faint illegible traces of writing on the covers of some notebooks. The text of these covers has been noted on a target where legible. Part of the text is in blue, black or red ink, while part is in pencil. Some pages contain text in both ink and pencil. The filmers have tried to preserve the legibility of the notebooks as best possible.
